

## CONNECTING PEOPLE, INSPIRING CHANGE

-  Are you between the ages of 16-25 and on the autism spectrum?
-  Do you want to create digital content that helps young people with autism understand the world they live in?
-  Do you want to review and influence services in your area?
-  Do you want to meet new people and gain great experience for your CV?

## Ambitious about Autism is recruiting volunteers for the myVoice project.

myVoice is a project for 16-25 year olds with autism. It's all about connecting you with other young adults with autism and helping you to have a say in your local communities.

We know having autism isn't always easy; but we also know that with the right support, it isn't something that should hold you back in life.

If you're aged 16-25 and have autism, we want you to join us. There are loads of ways to get involved and different volunteering roles you might be interested in. You don't need to have any experience; you just need to be enthusiastic to take part.

Through myVoice you will be given the opportunity to create digital content, facilitate online chats and review and influence local services.

We are offering you the chance to share your story and change society for the better!
